

Short Cut Menu (Available in V2.09.85)

In New S/W (V2.09.85), outstanding functions are included in and we would like to explain to you.

S/W (V2.09.85) has a New Icon Menu which supports Short Cut path as you see below.

<Old Text Menu >

<Icon Menu>

1. You can choose a Menu between **Main menu** and **Icon Menu** as default and moving to each other easily.

- If choose **Main menu** as default, Menu button will be working as text menu and short cut menu will be shown by keeping a button pressed
- If choose **Icon menu** as default, Icon menu will be shown by pressing menu button as default.

- ** All menu items are not included in Icon menu.
- ** You can add menu item what you want on icon menu list by pressing FAV button.
- ** Then, selected menu will be displayed with yellow star as you see below.
- ** Yellow star with circle is default menu item in Icon menu.

- ** Go to Icon menu and press Up or Down key, then you can move menu pages.
- In Second page, you will find added menu item as you see below.
